

Video - I can't see the Far End

1. Take Control Of Video Conference.

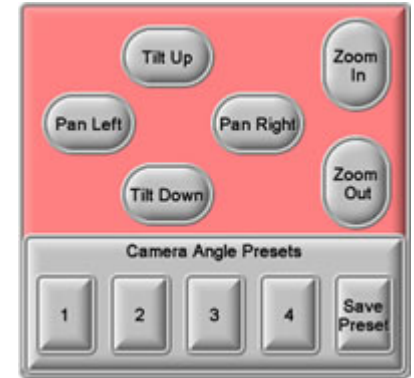

2. Select Their Camera (Your view of them) (the pink button and panel).

3. Change to camera2 on Your view of them then change back to Camera1.

4. Change the Camera angle, Tilt, Pan and zoom out.

5. Is your monitor, TV, or rear projector turned on and set to Far?

6. Ask the far end if their camera is turned on and if they can see you panning and tilting the camera.

If not then call the Hotline on 6066
